Did you know?

Keeping rural kids safe and healthy

Last year, 104 American children – almost two children every week – lost their lives on the farm or ranch. That's 104 little voices that are forever silenced. And this happens almost every year.

Preventing this needless heartache is what drives **Farm Safety 4 Just Kids**.

Our objectives are simple:

- Promote awareness and education for children and farm families.
- Enhance community involvement.
- Promote public policies that influence safe attitudes and behaviors.
- Encourage efforts to advance safer farm practices.

You can get involved by becoming a friend of FS4JK, by starting a new chapter in your community, or by joining a chapter already in existence.

To find out more, call **800/423-5437** or visit **www.fs4jk.org**.
